TECHNICAL PROJECTS

Online Fit Expert

https://online-fit-expert.web.app/

- Implemented a web application that uses a third-party API to display different shoe brands. It also allows users to view and track workouts.

Save My Jam

https://github.com/igl2/Save-My-Jam

- Developed a web application that allows users to search the Spotify library, create a playlist, and save it to their personal Spotify account.

Newsletter Signup

https://github.com/igl2/Newsletter-Signup **|** https://pacific-meadow-19624.herokuapp.com/

- Developed a newsletter sign-up page that allow users to input first name, last name, and email address and saves them to the Mailchimp API database.

ToDo List

https://github.com/igl2/ToDo-List **|** https://mysterious-wave-82123.herokuapp.com/

- Implemented a to-do list website that allow users to add and delete tasks. Uses MongoDB to save tasks into the database.
