## TECHNICAL PROJECTS

**Online Fit Expert**
https://online-fit-expert.web.app/
- Implemented a web application that uses a third-party API to display different shoe brands. It also allows users to view and track workouts.

**Save My Jam**
https://github.com/igl2/Save-My-Jam
- Developed a web application that allows users to search the Spotify library, create a playlist, and save it to their personal Spotify account.

**Newsletter Signup**
https://github.com/igl2/Newsletter-Signup **|** https://pacific-meadow-19624.herokuapp.com/
- Developed a newsletter sign-up page that allow users to input first name, last name, and email address and saves them to the Mailchimp API database.

**ToDo List**
https://github.com/igl2/ToDo-List **|** https://mysterious-wave-82123.herokuapp.com/
- Implemented a to-do list website that allow users to add and delete tasks. Uses MongoDB to save tasks into the database.
